

Dear Medical Professional,

Your patient, _____, has applied for a monetary grant for integrative therapies through our non-profit organization, Cape Wellness Collaborative (capewellness.org).

The mission of the Cape Wellness Collaborative is to provide complimentary/integrative therapies to people in our _____ community facing cancer. It is our hope to provide comfort, relieve stress and anxiety, and improve the overall quality of life of the people facing cancer on the Cape and Islands, while not interfering in any way with their current medical treatment(s).

Services we currently provide funding for include:

Acupuncture	Energy Work	Nutrition
Art & Music Therapy	Lymphatic Massage	Pilates
Chiropractic	Massage	Reflexology
Craniosacral Therapy	Meditation	Reiki
		Yoga

We have expanded our programs with three new initiatives – Wellness Moves, Wellness Eats, and Wellness Cares. These new initiatives have been years in the making, and we are thrilled to be rolling them out to provide additional support to people with cancer and their caregivers.

- Wellness Moves is an approachable, low cost way for people facing cancer to be able to exercise. CWC is partnering with local yoga studios to develop this program.
- Wellness Cares is about caring for the caregiver. We are thrilled to announce our affiliation with Louisa Stringer, a Certified Caregiver Consultant™.
- The Wellness Eats pilot program will be launched in 2019. Our ultimate goal is to provide nutrient dense, healthy, delicious meals to people undergoing cancer treatment.

All of our partnering practitioners are licensed (when applicable), insured, and pre-screened by our Wellness Committee. If you have any questions or concerns, please do not hesitate to call Darlene at 774-408-8477 or email darlene@capewellness.org.
