COLLABORATIVE

CWC Circle of Hope: Breast Cancer Support Group

Cape Wellness Collaborative is hosting a bi-monthly breast cancer support group that will meet the first and third Tuesday of each month.

First and third Tuesday of each month from 5PM-6:30PM at Cape Wellness Collaborative

Meetings will be held at Cape Wellness Collaborative in South Yarmouth.

A support group for our CWC members who are currently going through stage 0-3 breast cancer.

The group's mission is to provide emotional support, encouragement, education and resources in a peaceful environment, and to promote a sense of belonging so that no one has to navigate a breast cancer diagnosis on their own. Enjoy a cup of tea or coffee, a bite to eat and meaningful companionship.

Led by Patricia Hayes. Patricia has over 20 years of patient navigator, patient support & support group leadership experience with a focus on those going through breast cancer.
